04

CGM MediEd: EHR for Schools

CGM MediEd is a completely secure, cloud-based clinical documentation application that supports schools in collecting Medicaid reimbursement for Occupational, Speech and Physical Therapies, Nursing and Behavioral Health services provided in the school setting, following the student's Individualized Education Program (IEP).

The **ARIA School Billing** team of documentation, billing, and revenue cycle experts will help your school to secure all available Medicaid reimbursements for services provided.

CGM MediEd: MAIN FUNCTIONALITIES

Staying compliant with IDEA is easier when you use CGM MediEd to track your students IEP services, saving your school time and headaches.

CGM MediEd makes tracking and reporting on student goal progress simpler than ever. See how effective a student's plan is, coordinate strategies with staff, and keep parents informed.

Seamlessly keep track and report on staff activity as they perform student IEP, IFSP, or 504 Plan services. Easily record activities within CGM MediEd.

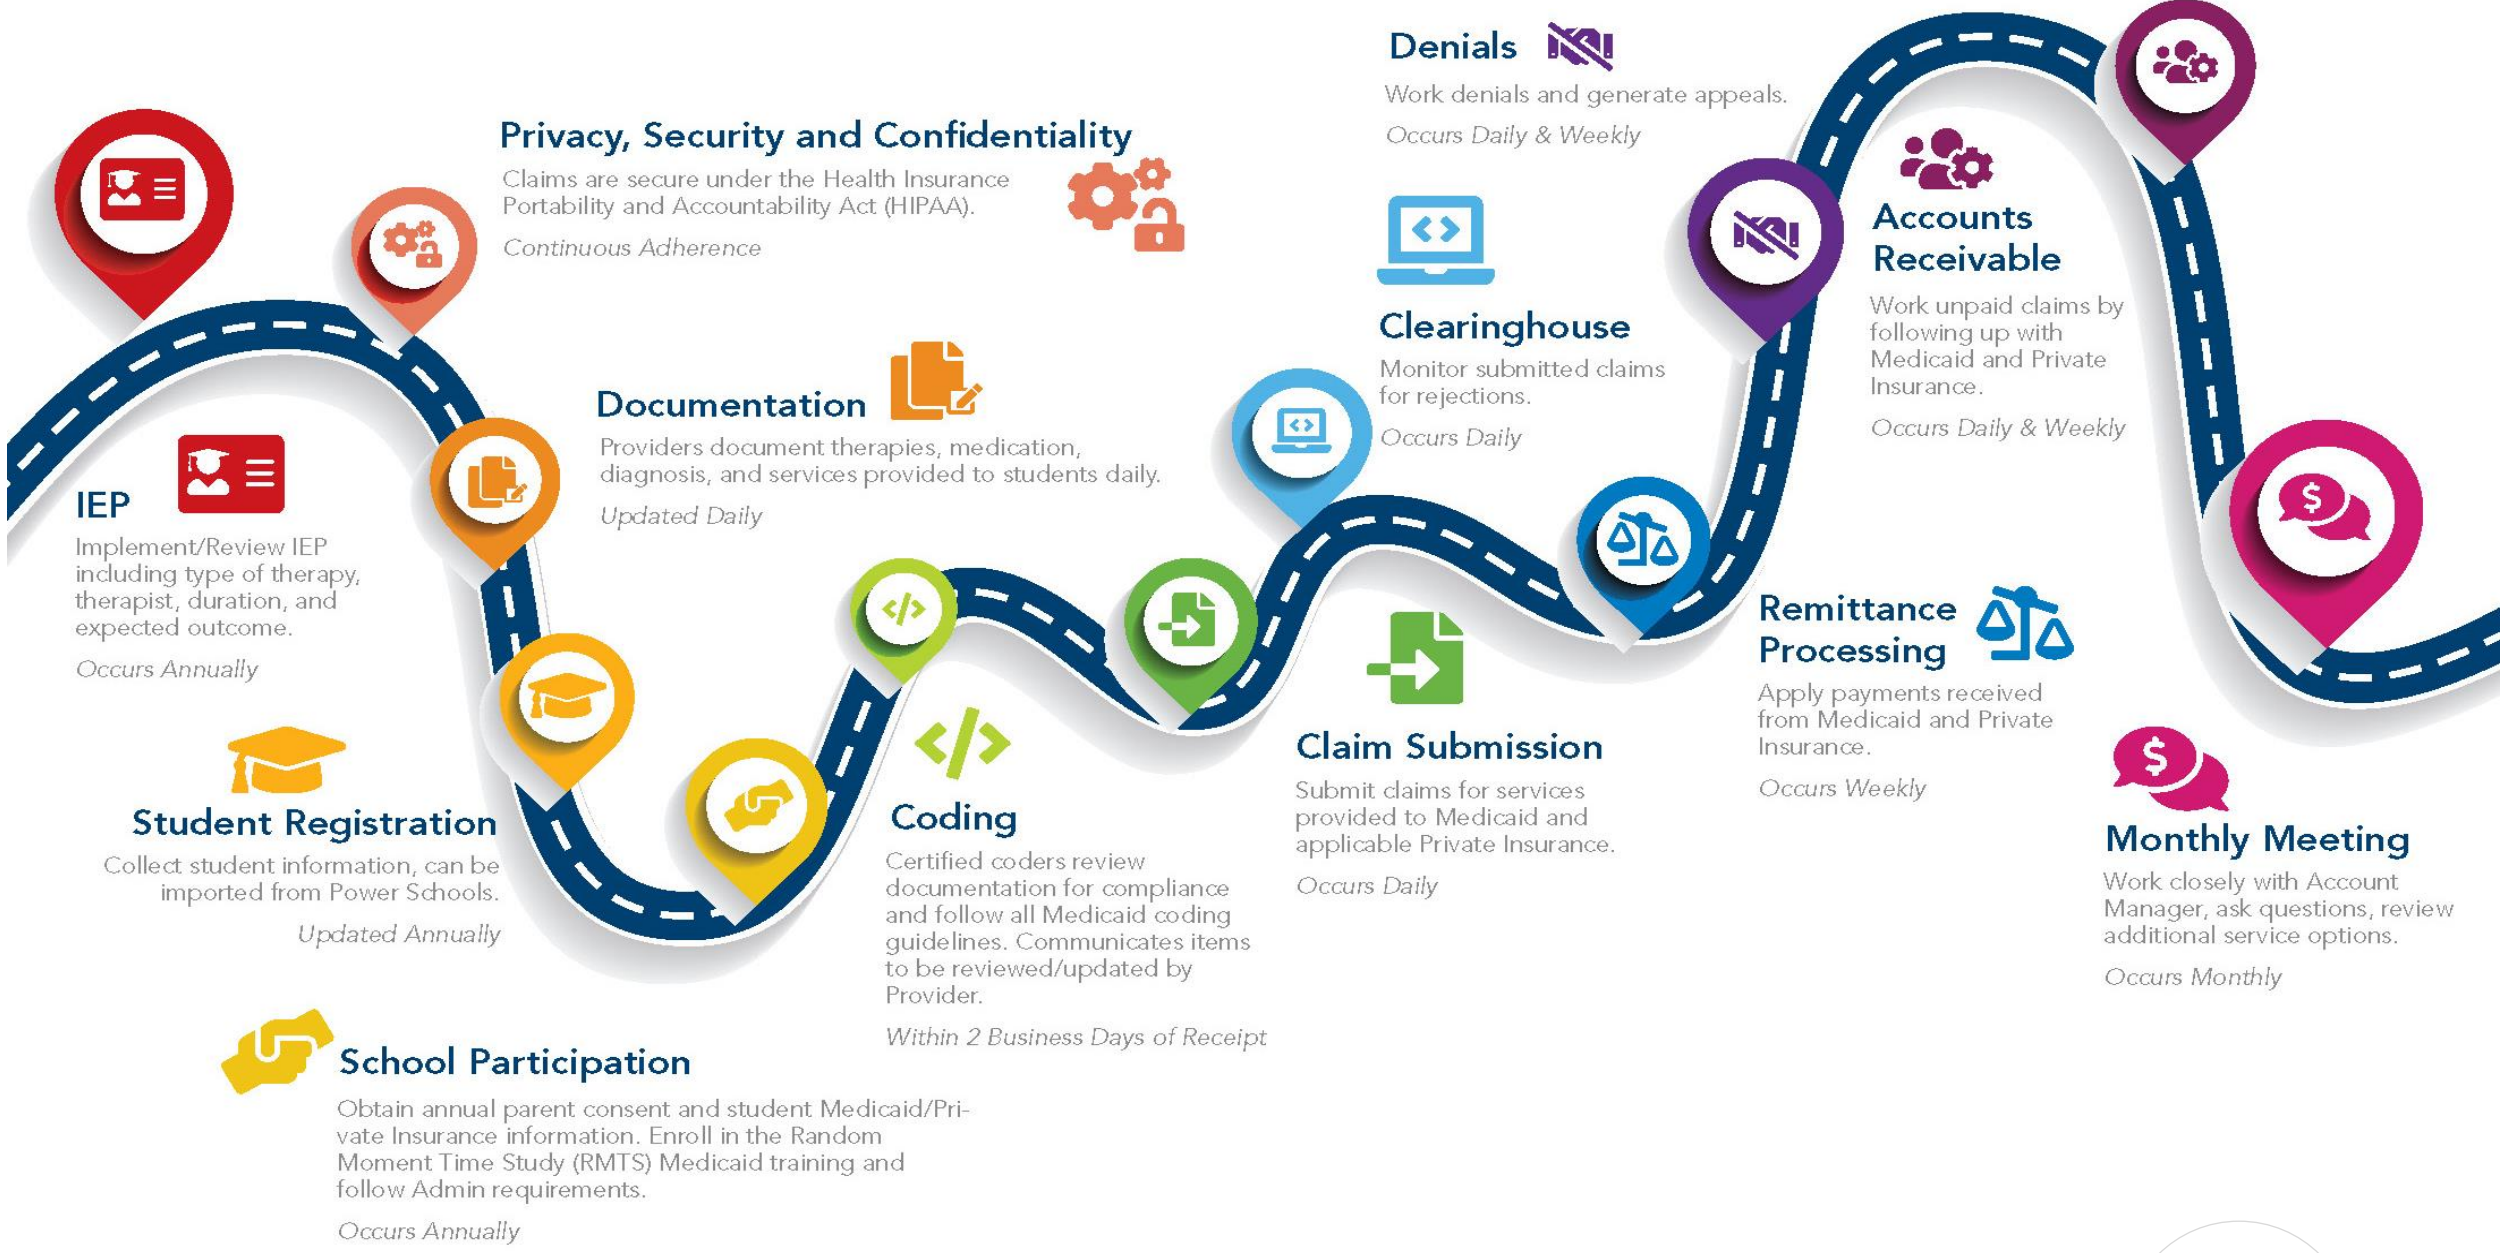

Link your school's SIS, or school administration software, with CGM MediEd to ensure integration and comprehensive data reports. Turn that data into useful information.

Individualized Educational Plans (IEPs)

Progress Tracking

Easy Oversight

Student Information Systems (SIS) Integration
