

Welcome!

SECRET LIVES
OF **Artifacts**

~Student Artifacts~

A student artifact is something a student creates that makes their learning visible. It shows their thinking and demonstrates their understanding on a particular subject or time.

~Student Artifacts~

A student artifact is something a student creates that makes their learning visible. It shows their thinking and demonstrates their understanding on a particular subject or time.

Artifacts help students learn. Students gain knowledge and skills by creating, reflecting on, and discussing artifacts with peers and mentors. Creating artifacts can help students make sense of what they're working on and make connections between old and new knowledge. Creating artifacts involves active and often social learning, and can increase student engagement with the learning process.

Display Tray

Complete each part of the tray below with information about your topic. Locate primary and secondary sources in your Student Edition, Online Edition or the internet and cut them out. Then, glue them in a section of the lunch tray. Write your speech on the back and cite your sources. Last, present your display tray to the class.

The display tray consists of seven frames arranged in two rows. The top row has four frames: a vertical American flag, the Statue of Liberty, the Liberty Bell, and a bald eagle in flight. The bottom row has three frames: the White House, the Lincoln Memorial (with a label 'Lincoln Memorial' below it), and a blank space for a drawing of two children.

Americans donated
the funds for the

Culture is the beliefs, traditions, and the celebrations of a group of people. Culture is expressed through art, stories, music, food, clothing, architecture, and religion. Cultures can combine to create new traditions. What are your traditions?

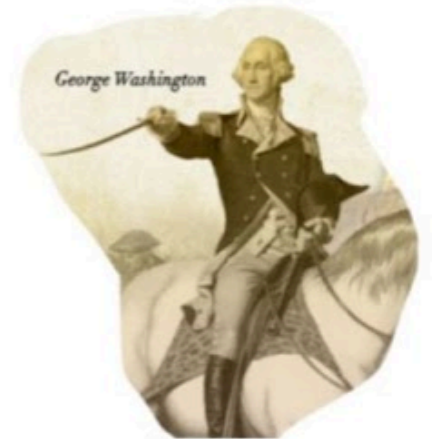

FOLD

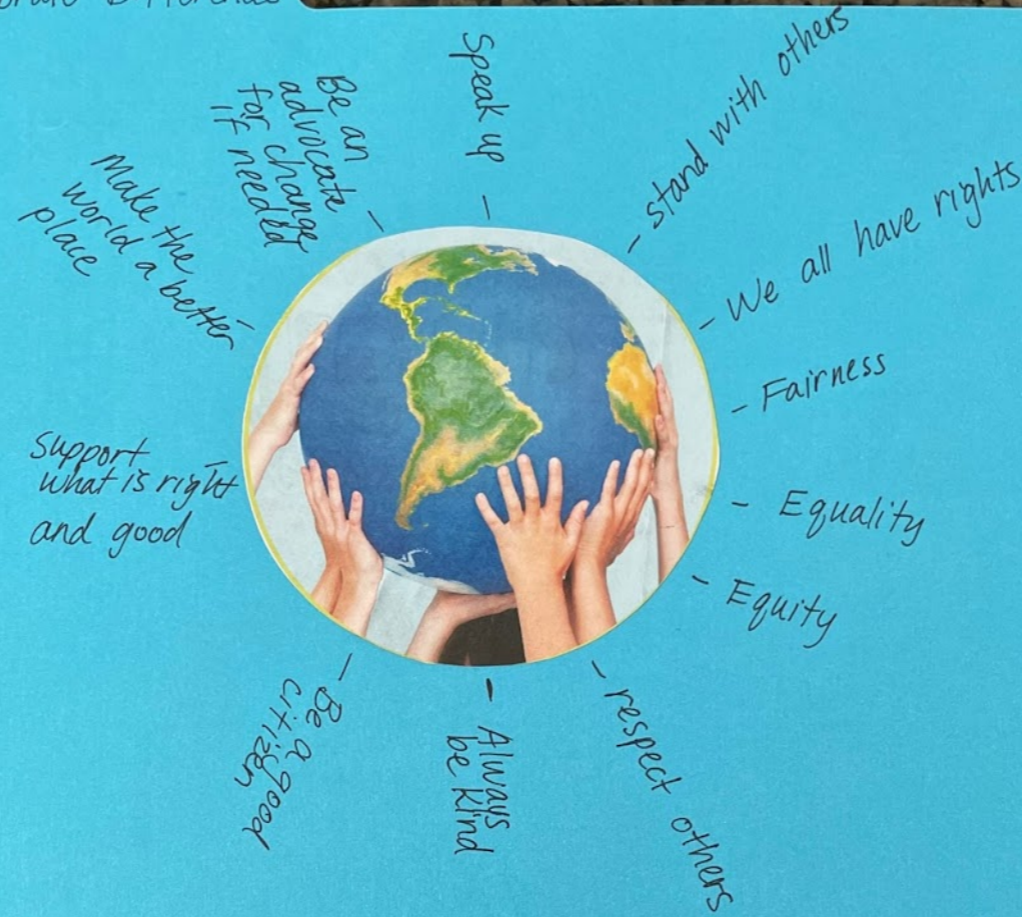

I was born to rule. I
taxed things like tea,
sugar and paper.
What I said was
LAW!
I am...

I was selected to
lead. I wanted fair
taxes. I believed all
MEN should have a
say in government.
I am.

Celebrate Differences

Celebrate Differences

No one deserves to be treated unkindly because of their differences. Instead, celebrate what makes us all unique. Take time to learn about others by asking respectful questions. Investigate ways human beings are alike as well as how we are different. Take a look at yourself, too. What do you love about being you? Share it with the world!

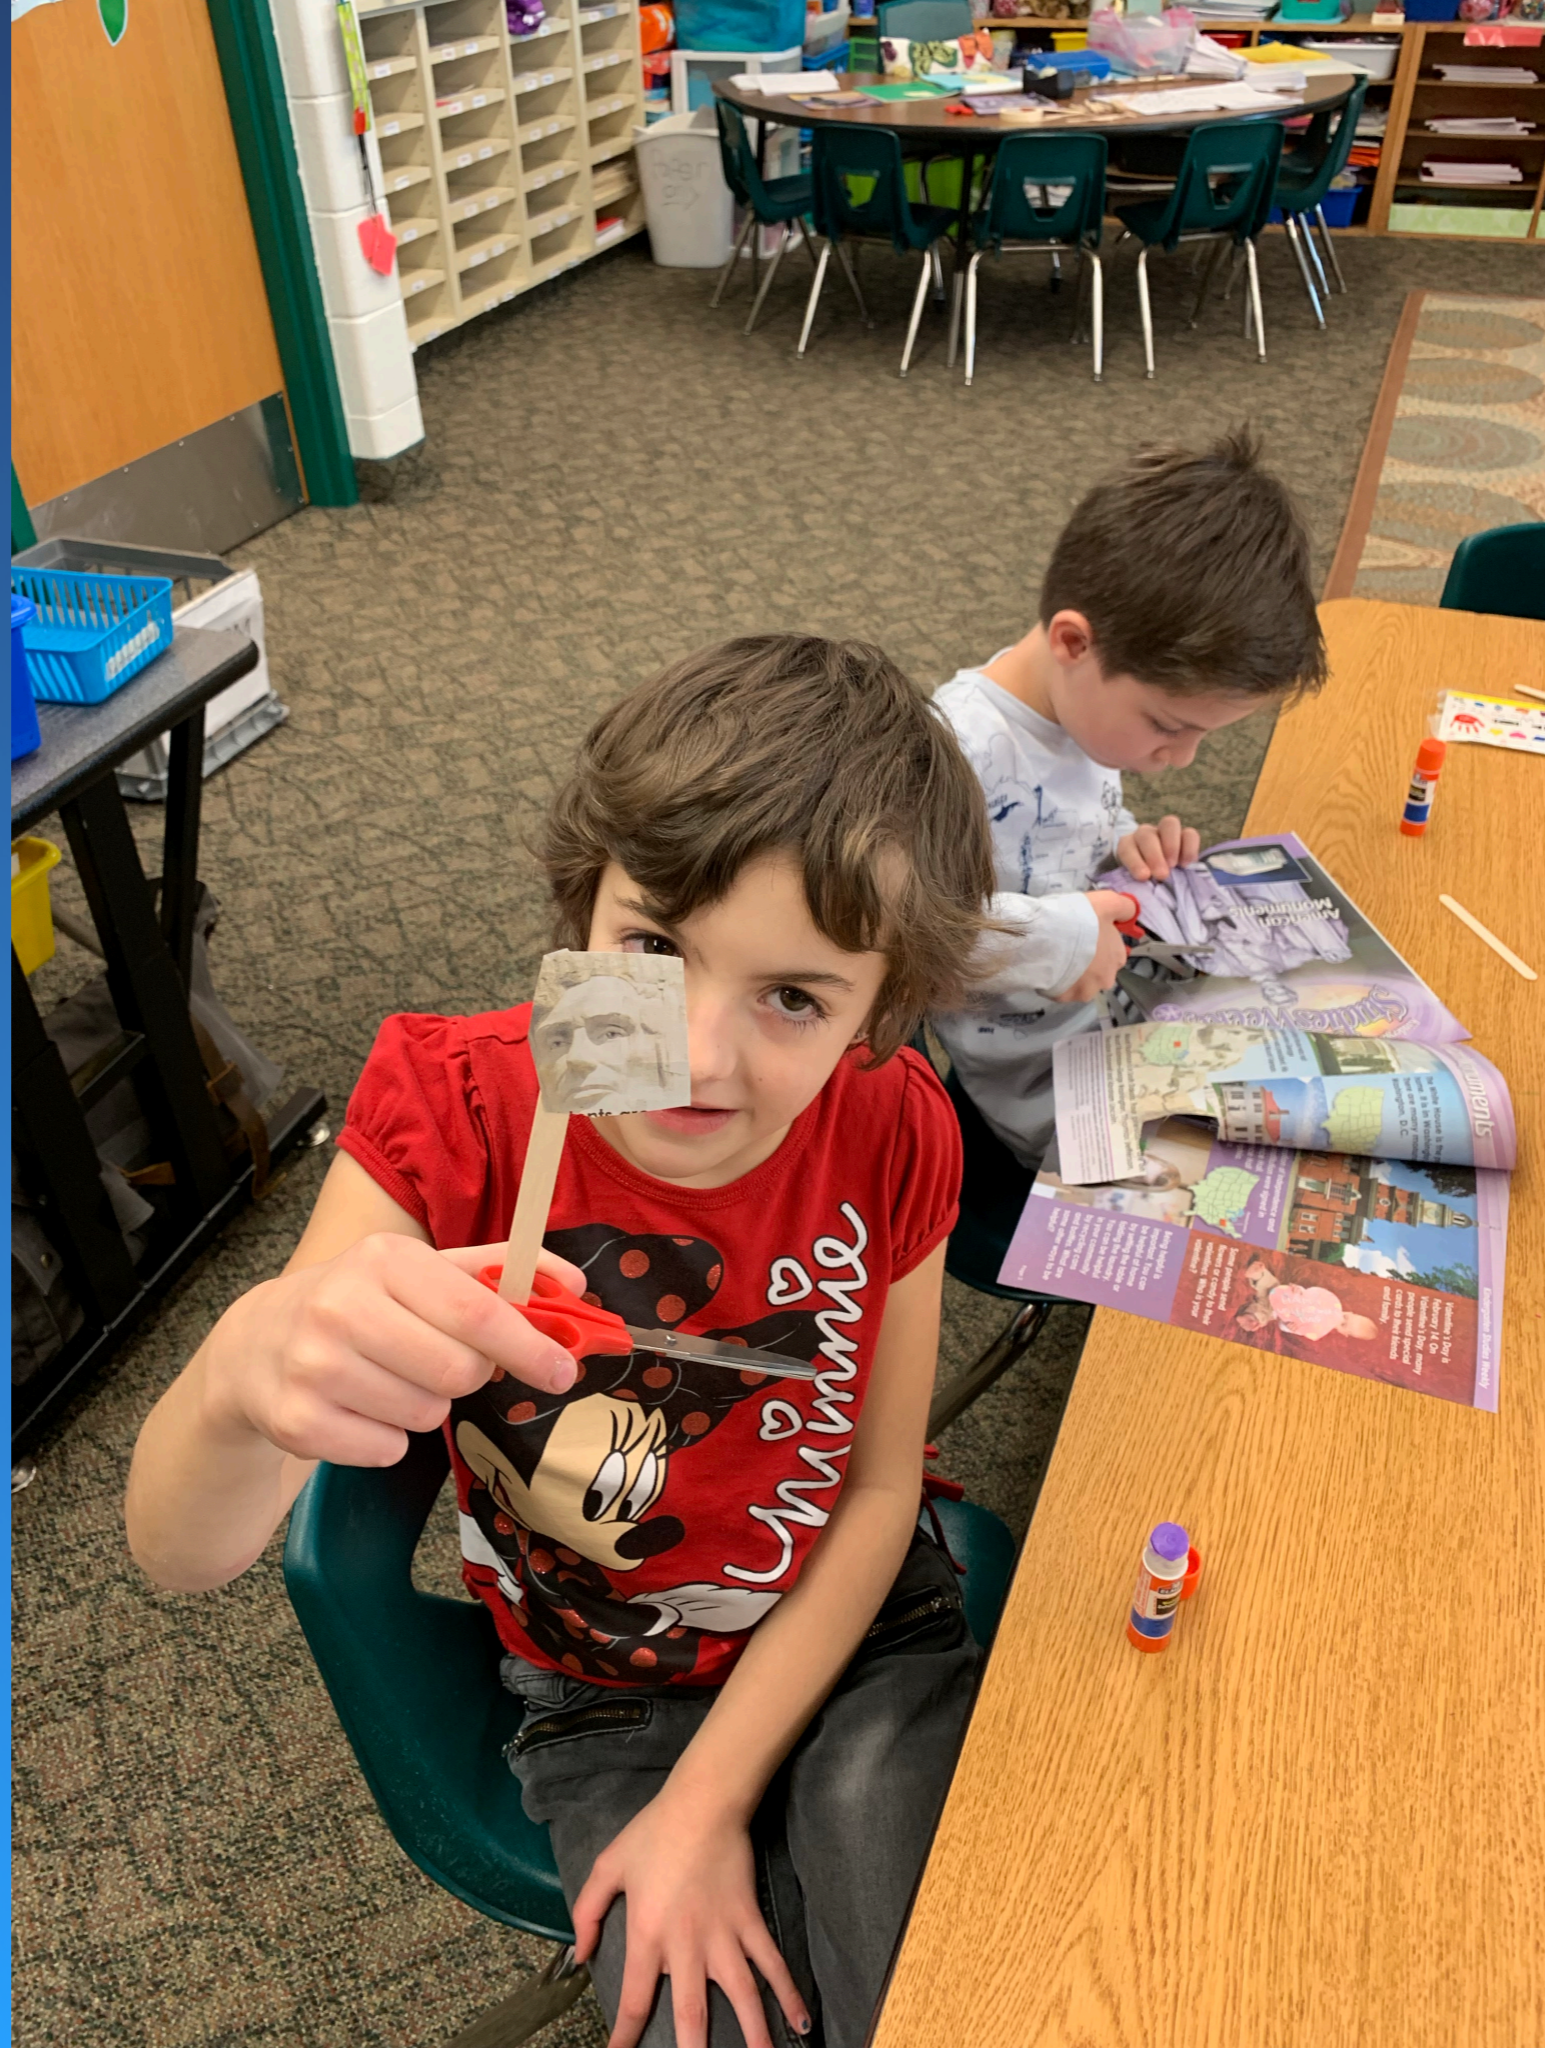

A World of Cultures

We all have the same rights, but that doesn't mean we're all exactly alike. We all represent different races, genders, and abilities. We also represent different cultures.

Your culture is made up of the beliefs, customs, and languages that you learn from the people around you. It may be influenced by your location, religion, and race. Learning about other cultures helps you understand yourself and others better.

FOURTH QUARTER • WEEK 1

Many monuments are named after important people. Monuments, buildings or statues honor people, events, places, buildings or symbols.

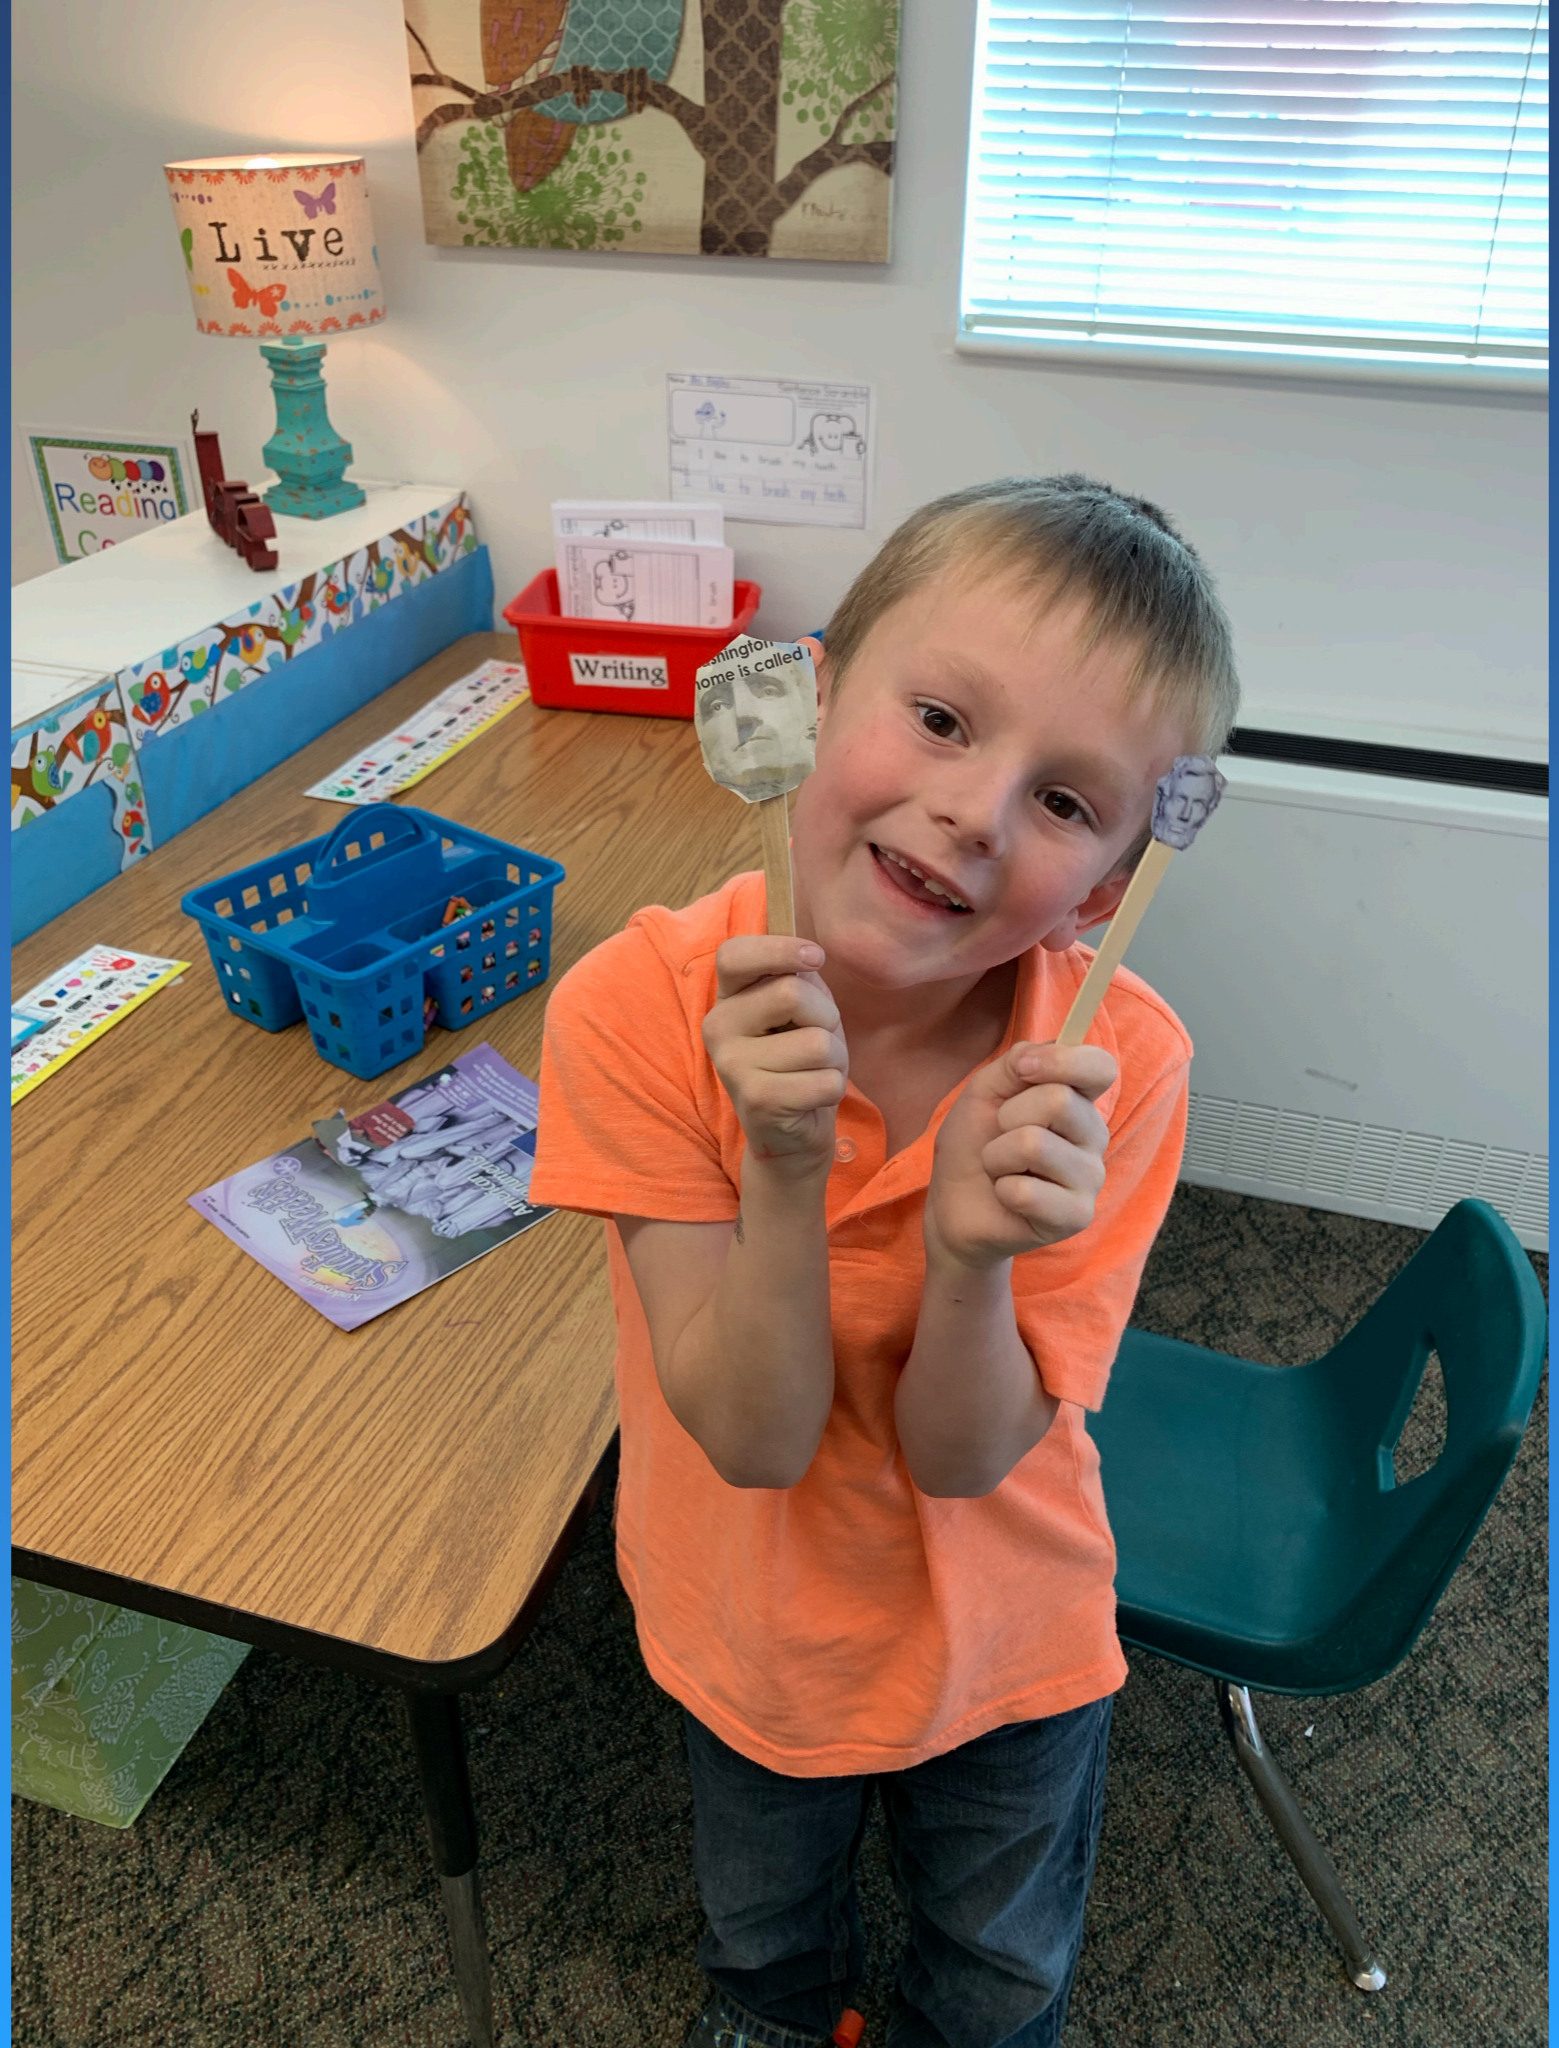

Some people are important because they helped our country. We can learn about them by reading the story. You can be a hero in your own story.

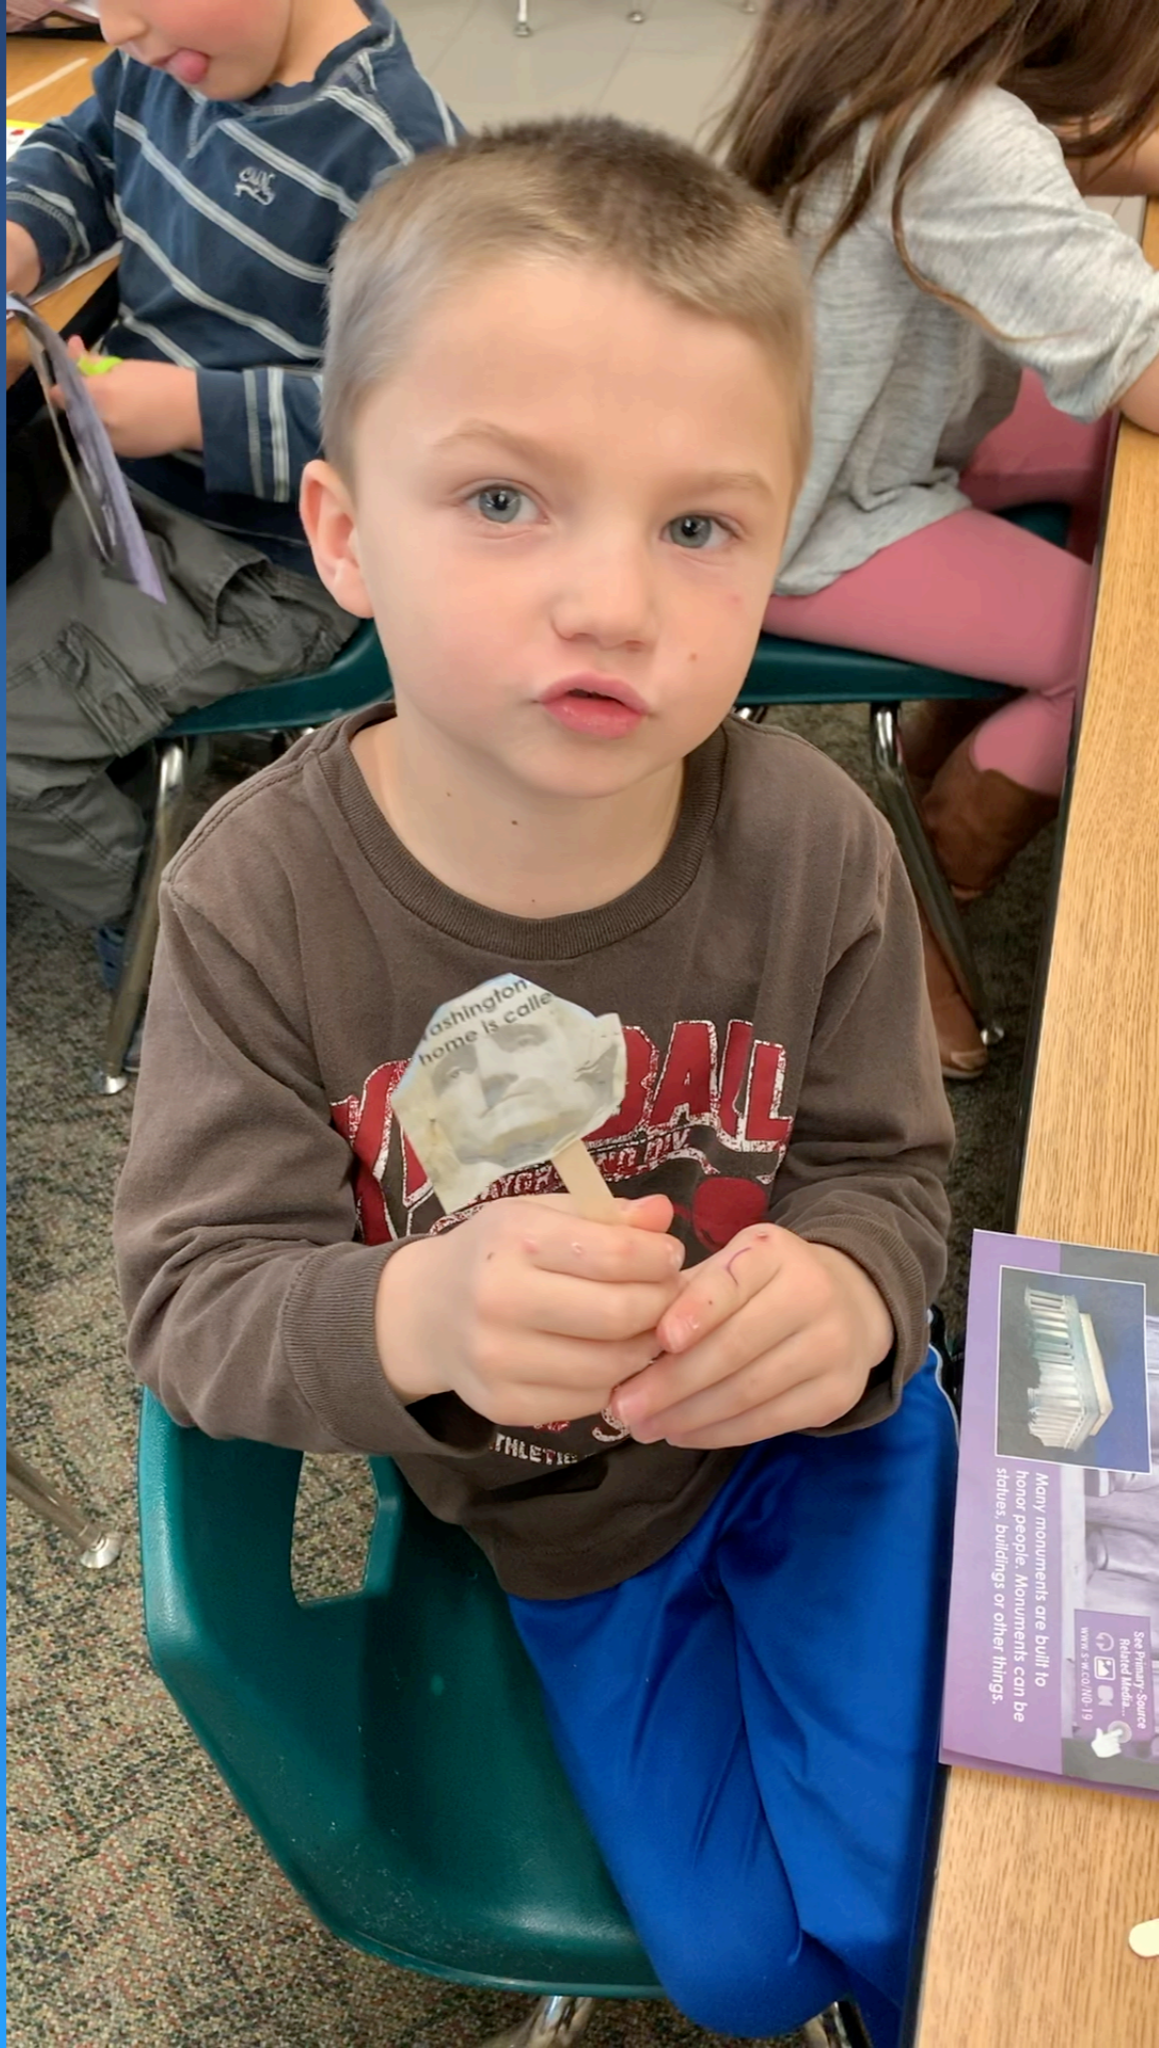

Being helpful is important. You can be a hero in your own story.

Some people are important because they helped our country. We can learn about them by reading the story. You can be a hero in your own story.

Valentine's Day is a special time to show your love for someone. You can make a Valentine's card for a friend or family member. You can also make a Valentine's card for yourself. You can be a hero in your own story.
